

Participant reviews:

"This is a class that should be mandated before people go into mediation and right after the temporary orders are put in place."

"This class is a jump-start to a healthy divorce."

"I liked that this class was very informative and it helped me to see many things in a new perspective. It made things come into a new light with me and helped me to focus on what needs to be done to make the best decisions for my child."

"I feel this class is a good icebreaker when parents are stuck in "my way, your way" behavior."

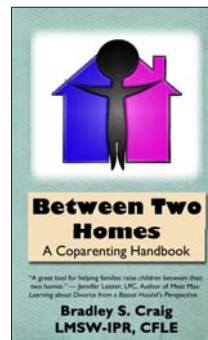

"This was a great class, and being a first time father, I have learned a lot on how to handle coparenting situations; especially how to deal with the "shadows". Any relationship going forward in my life, I will recommend they take this course to understand the proper way's to coparent and respect my coparenting."

"Painful mirror reflection of what I have done to contribute to the unsuccessful resolution to this divorce. I leave here with less anger towards the other parent and more ownership of what I can and should do going forward. This class helped put my focus off myself and back towards my children."

"I wish this class was available 10 years ago. Great information on how to consider the kids. Made me think how I can work on the transition of 2 households. Thank you!"

"I found this class amazingly informative. It made me look at myself retrospectively. It's helped me realize there are things I need to take responsibility for, not be victim."

"I think this class should be recommended at the first consultation a parent has with their attorney when they want a divorce. There is a lot of good information I wish I knew sooner."

Between Two Homes A Coparenting Handbook helps you:

- Build a successful coparenting relationship so you can stop fighting and start communicating
- Recognize obstacles to the coparenting relationship
- Take advantage of alternatives to litigation
- Talk to your child about the changes using language he or she can understand
- Learn the special needs of your child at various stages, from newborn to teenager
- Create a coparenting plan
- Learn what behaviors, and even what words, can help or potentially hurt your child
